Medi-Parents

Our Parents, Our Foundation.

Our parents play the biggest role in our development.

They help us in every step of our life and prepare us to meet future challenges.

Give them something they will truly appreciate as they grow older with a mediparent account.

- Are you concerned that your parents are not covered by some form of medical cover?
- Do you need some basic health cover for your parents?
- Do you want to contribute to your parents' medical cost, but in a sustainable and planned approach that does not put financial stress on you when your parents need to access the service?

***Thank you for joining us
in supporting your parents***

Medi-Parents Plans

Our MediParents product is now available, talk to our business and alliance team on how the MediParents work!

This is not a credit facility, but a payment plan that allows flexibility to cater for basic health service for parents.

Parents can use the service based on the prepaid amount in their account.

Siblings can contribute as a group to medi-parents

- Children have some form of comfort, their parents can access some basic health services through private hospital.
- Do not put stress on the kids looking for cash, should their parents unexpectedly become sick
- Value adds provided, depending on the categories
- Children take the ownership of their parent's health, give back to their parents through this product
- Affordable – allows the kids to plan this around their many conflicting responsibilities.
